D. P. (Pack) WOLFE.

C. H. FERGUSON.

JAB. P. (Jim) WATTS.

For Mayor:
R. F. SMITH.

Which shall we do—raise chickens or a garden? We can do both by keeping one or the other well fenced.

Suppose Gov. Hobby did join the Woodmen of the World? Thousands of good men have joined that splendid brotherhood.

Several Scurry county people who had laid in flour enough to do them several weeks have brought back and reduced their holdings.

Farmers say their land plows fine and wheat is coming up since the rain. It is confidently believed that we are going to get seasonable rains so now watch us.

It is said that Jim Ferguson of Temple has friends busy trying to keep the special session from changing the election law so as to keep Ferguson's name off the ticket. What does it matter. The senate has already said he cannot hold office in Texas and if his name is on the ticket it can't count for anything.

During the impeachment proceedings against Gov. Ferguson, H. C. Poe a banker at Dutton gave testimony damaging to the accused, and soon afterwards Poe was charged with some sort of embezzlement. He was tried last week on the charge and was acquitted.

Considering the great need of more food in 1918, and the real danger of lack of transportation to get food to you, in the light of the above figures, do you consider it safe to put all your land in cotton and trust to buying your food? Isn't the safe plan, in 1918, to produce your own food FIRST and then grow cotton as a cash crop?

Petitions have been signed by many members of the Legislature asking Gov. Hobby to submit at this special session the matter of changing the election law to permit women to vote in the July primaries, and also to provide for majority nominations. If this is done an effort will be made to provide that no person's name shall go on the official ballot who is disqualified for holding office in the state.

Representative Banks of Houston county introduced a resolution to

investigate the expense accounts of members of the investigating committee, one of the members turned in accounts for more than a hundred dollars. While others only had two or three dollars expense and some had nothing.

Senator McNealus of Dallas was one of the high priced investigators and he wanted to fight Salas for his activities in the matter. The Dallas war horse had two near fights in one day.

We still hear considerable oil talk, with some gas and coal.

The oil, coal and gas excitement about Snyder is not the "efficiency" kind referred to by Joe Taylor of State Press in Dallas News, regarding the sore spots in Col. W. A. Holford's system, of the Taylor County Times at Abilene.

Plenty of rain is predicted during the month of March. Cheer up.

Note the patriotism of the Snyder National bank, the First National bank, and the First State Bank and Trust company in the use of a full

page War Savings Stamps and Certificates, also a liberal space used by Baker, Grayson & Anderson.

One of our colored boys says he don't care to go to war as they are fighting for democracy and he's a "republikin."

JIM WATTS FOR CITY MARSHAL

The Signal is authorized this week to announce Mr. James P. (Jim) Watts as a candidate for the office of City Marshal of Snyder, election April 2.

Mr. Watts has been a resident of Snyder for a long time. He has been engaged largely in the mining business, a position that proves the worth of a real man. He is fully capable to perform the duties of City Marshal. Honorable, conscientious, courteous and fair to everybody.

His public life among us is an open record and if elected he will make the city a good industrial and correct officer. Consider his claims.

It is going to have to be a pretty good dog to justify paying the tax on him besides what he eats.

Ware & Wade are moving their grocery store into the red front building on the east side formerly occupied by the Cross store.

MERRILL WILL NOT BE A CANDIDATE

To my friends and the voters of Scurry County:

As I have been asked the question so often if I was going to make the race for Sheriff this time, I am putting this in the paper to let the people know that I am not.

I want the people to know that I certainly appreciate what they have done for me in the past and I want to thank them for the liberal support they have given me and for the way they have stood by me and assisted me in executing the law and in retiring from the office I shall be ready at any and all times to assist my successor in executing the law.

W. A. MERRILL, Sheriff

The U. S. Food Administration says: "Save Fats"

AND IT ADDS: "To save does not mean to do without. Use vegetable fats instead of lard and butter in your cooking."

THAT is the direct appeal of your Government. It calls for no sacrifice on your part.

—No sacrifice of nutriment because vegetable fats are rich, wholesome and pure.

—No sacrifice in economy because vegetable fats cost less than butter or lard.

The only change you are asked to make is a slight change in the way you cook—the shortening you use.

Fortunately, the country has right at hand an abundant supply of nutritious vegetable fats—of which Cottolene is a well-known and dependable example.

The change from lard and butter to vegetable fats is both simple and patriotic. Cottolene meets the needs of wholesome cooking, the requirements of economy, the wishes of the Government.

And what is the reason for the Government requirements? Simply this:

"Pork, ham, bacon, lard, condensed milk and butter can be shipped in concentrated space"—to feed the under-nourished women and children in stricken countries—to feed our own fighting men and the men of our Allies who are fighting in our defense.

WITH these compelling facts in mind, is it not a clear duty to put patriotism above cooking customs and use the nutritious, economical vegetable fats which nature has abundantly supplied?

Make your kitchen a patriotic kitchen and remember as you cook—every ounce of vegetable fat you use instead of lard and butter may mean saving the life of someone somewhere in the world.
